Princess Hesina of Yan has always been eager to shirk the responsibilities of the crown, dreaming of an unremarkable life. But when her beloved father is found dead, she's thrust into power, suddenly the queen of a surprisingly unstable kingdom. What's more, Hesina believes that her father was murdered and that the killer is someone close to her.

Hesina's court is packed full of dissemblers and deceivers eager to use the king's death for political gain, each as plausibly guilty as the next. Her advisers would like her to blame the neighboring kingdom of Kendi, whose ruler has been mustering for war. Determined to find her father's actual killer, Hesina does something desperate: she enlists the aid of a soothsayer's treasonous act, punishable by

death, since magic was outlawed centuries ago.

Using the information provided by the sooth, and uncertain if she can trust her family, Hesina turns to Akira, a brilliant investigator who's also a convicted criminal with secrets of his own. With the future of Yan at stake, can Hesina find justice for her father? Or will the cost be too high?

Descendant of the Crane by Joan He - Goodreads Descendant of the Crane made me abandon all my academic requirements, lose an entire night's worth of sleep (I finished at around 7:30 in the morning), and had me crying at least thrice. It certainly delivers on being a Chinese-inspired Game of Thrones, although some scenes made me think that perhaps GoT pales in comparison to this impeccably written debut.
